SXTH5i-BT

Features

- New ergonomic design with larger and clearer LCD display
- IP67 electronics
- Simple 2-button operation
- 4 preset memories
- Proximity output with optional built-in Bluetooth
- Bi-directional communication
- RS-232C output
- Range 2-300mm (0.080"-12")
- Resolution 0.001mm/0.00005"
- Ratchet stop to ensure consistent measurement
- Setting rings included with individual instruments and sets
- UKAS certificates supplied as standard with all setting rings
- UKAS certificates supplied as standard with all gauges

**BOWERS GROUP**

Bowers **NEW** Universal Gauge

Features

- Constant measuring force
- Internal and external measurement
- Special anvil designs available upon request
- Large measuring range, possible 0-3000 mm (0-118 inch)
- Supplied with a digital readout (Bluetooth output optional)
- A large range of accessories for standard measurement of threads, grooves, splines, diameters, lengths, shallow spigots and recess diameters

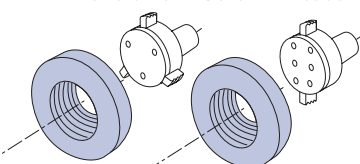

TGU1000

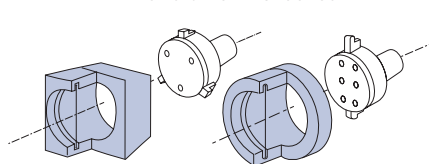

*Carbon fibre extension available as option

Specials, it's what we do...

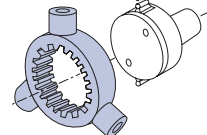

2 and 3 Point Screw Threads

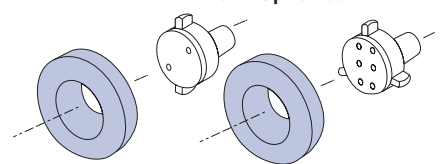

2 and 3 Point Grooves

Internal Spline and External Splines

2 and 3 Point Spherical

Sylvac BT Smart App

805.6301.10

sylvac Market Leading Digital Indicators

S_Dial **WORK Advanced Bluetooth®**

Our S_Dial Work Advanced Bluetooth® reflects all the swiss know-how and audacity of Sylvac. Best accuracy available on the market. No other instrument on the market includes so many functions and possibilities than this dial gauge.

Part Number	Model	Range mm (inch)	Resolution mm (inch)	Max. error (µm)	PRICE
805.6301.10	Advanced BT	12.5 (0.5)	0.001 (0.00005)	3	\$820.00

MW110-30DAS	0-300 (0-12)	0.01 (0.0005)	40	\$225.00

NEW

Baty Venture XT Vision System

Greater Vision with the Venture XT

Take the power of fusion software one stage further by completely automating the inspection process. Now advanced features like scanning and best fitting can be done quickly without taking up the time of skilled operators.

This newly styled vision system includes an extended 200mm measuring range in the Z axis, new column design with integral Z axis counter balance. Faster X-Y axis drives, touch screen, greater field of view and magnification – up to 12 x zoom. The enhancements to this new product also include a major redesign of the software, giving users:

- All features in area tool
- One click measurement tool
- One grab measurement of all features in the Field of View
- Self-calibrating zoom lens with Field of View error correction
- Optional CAD comparison with touch probe programming from 3D model
- Improved auto-focus can now find and measure from a distance in one move
- Make curve scan tool from DXF – no more lost edges on badly prepared or dirty parts
- Image stitching – allows a large XY area to be scanned and displayed as a single image
- Live overlays, dimensions and features on the camera (stitched) image, extremely useful for driving the machine to features and showing where the features appear in relation to the rest of the unmeasured the part
